How to Bring your 3D Experience License to a Different 3D Experience Platform

Log in as the admin user on your platform. Navigate to the platform management dashboard and go to the Members tab.

3DDashboard Platform Management ~	Search CAD MICROSOLUTIO	S 🛛 💿 S	+ 🔅	4	Vr ?

	Additional Apps 2				Q
		CATIA V5 Add-in			

In the members Control Center switch to the Configure Members Options tab.

cadmicro

Turn on the option to "Allow administrators to grant roles without assigning automatically the associated license" Then go back to the Invite & Grant Roles tab.

Here you will now see the slider restrict usage to this platform beside the role you are assigned. Turn off this slider for the roles you want to bring to the other tenant. Make sure it is turned off for 3D Swymer and Collaborative Industry Innovator as these are the base roles needed for all platform roles.
