About CAD MicroSolutions Inc.

Founded in 1983, CAD MicroSolutions Inc. is a Canadian-based industry leader on a mission to enable innovation and success for its clients. As a trusted partner, CAD MicroSolutions Inc. offers a wide spectrum of advanced technologies, including design automation software, additive manufacturing solutions, 3D metrology and scanning technology, as well as professional services, training, and consultation. Their unwavering commitment to client success has solidified their position as a leading enabler of innovation within the industry.

About One Click Metal

Founded in 2019, One Click Metal is an industrial B2B based in Tamm near Stuttgart. We believe that technologies can be made understandable and usable for everyone. That's why we simplify our product solutions so that anyone can use them successfully. With our metal 3D printing system, we primarily serve small and medium-sized enterprises and thus ensure that metal 3D printing technologies become accessible to the general public. We are working on this with around 20 employees and a lot of motivation.
